Custom-made chimney flashing*

Copper	Titan zinc
Code 10190	Code 10290
Galvanized steel	Painted steel
Code 10390	Code 10490
Aluminium	Stainless steel
Code 10590	Code 10690

*Fully hand-crafted production: each seams is carried out according to the direction of water flow; separated side flashing prevents from leaks due to accumulation of leaves and other debris.

The Custom-made chimney flashing is supplied with or without side flashings, according to the customer's requirement.

The Expansion strip is manufactured on to customer request: its use avoid the possibilities of detachment of the flashing from the chimney side, due to heat expansion.

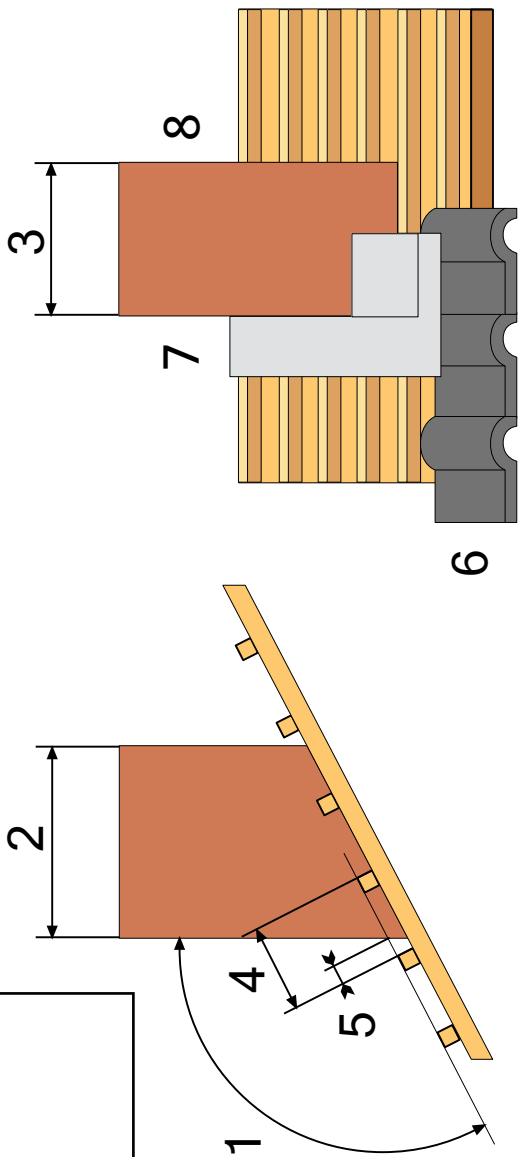

To receive a quotation of the Custom-made chimney flashing according to your needd, please fill out the form on page 5 and send it via email to manifatturamonterosa@hotmail.it or fax it to (0093) 0324 062 011

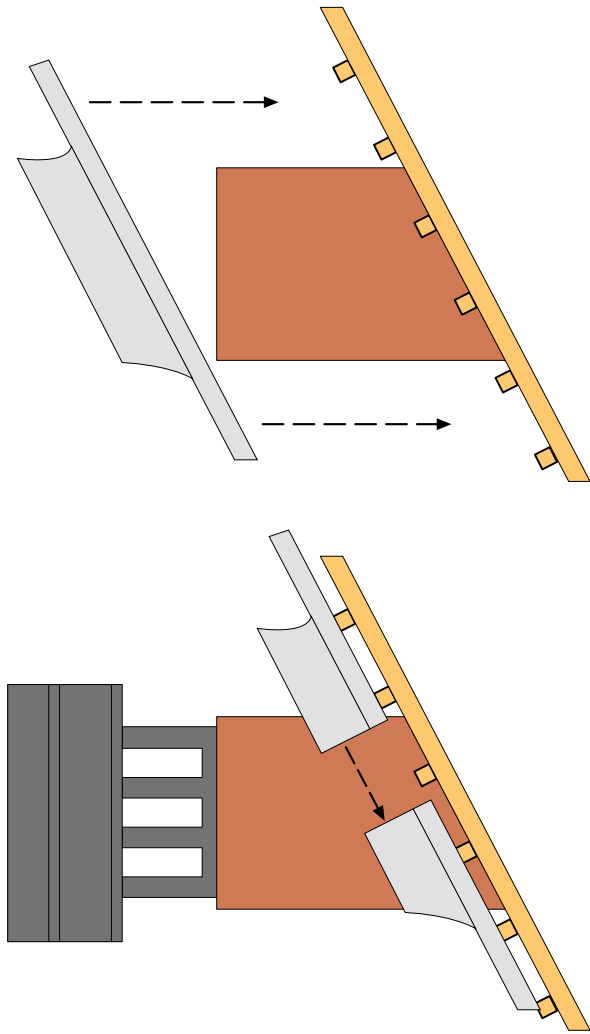

Customer:

Which are the basic informations for a Custom-made chimney flashing?
CFill out the form and send it via fax at (0039) 0324 062 011, or via email to manifatturamonterosa@hotmail.it
You will receive a quotation as soon as possible.

Flashing measurement

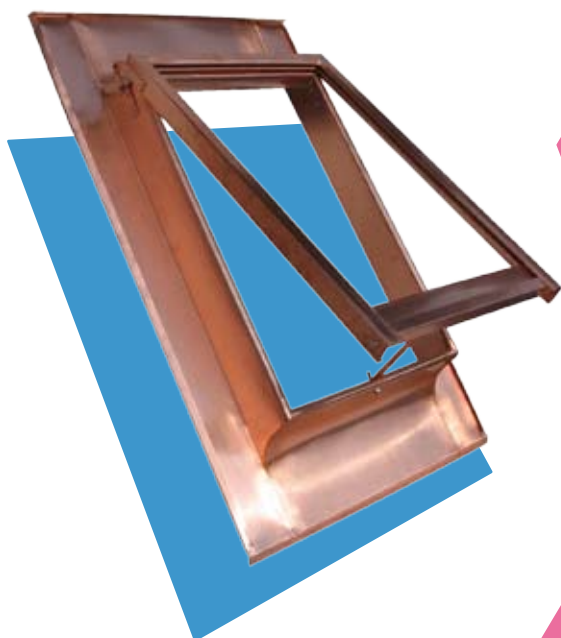

Flashing assembly
-Without chimney cap
-With chimney cap

- 1- Roof slope (in %)
- 2- Chimney lenght (finished measures)
- 3- Chimney width (finished measures)
- 4- Laths gap
- 5- Chimney gap from last lath
- 6- Roofing type
- 7- Chimney flashing material
- 8- Flashing assembly:
 - With chimney cap >>>>
 - Without chimney cap >>>>
